Local Rate (\$1.20/mile): For journeys within the local threshold, avoiding the complexities of federal checkpoints, we offer a competitive local rate. This rate is designed for routine, shorter-distance deliveries that remain within the state's more navigable areas.

Over the Road (OTR) Rate (\$2.35/mile): When transportation extends beyond these checkpoints, necessitating additional logistics, regulatory compliance, and potential delays, we implement our OTR rate. This recognizes the added value and expertise required for such deliveries.
